CONTENTS

No. 1, SEPTEMBER 20, 1944

PAGE

SOLLNER, KARL, and CARR, CHARLES W. The structure of the collodion membrane and its electrical behavior. X. An experimental test of some aspects of the Teorell and Meyer-Sievers theories of electrical membrane behavior 1

OSTERHOUT, W. J. V. Studies of the inner and outer protoplasmic surfaces of large plant cells. II. Mechanical properties of the vacuolar surface 17

OSTERHOUT, W. J. V. Differing rates of death at inner and outer surfaces of the protoplasm. I. Effects of formaldehyde on *Nitella* 23

OSTERHOUT, W. J. V. Differing rates of death at inner and outer surfaces of the protoplasm. II. Negative potential in *Nitella* caused by formaldehyde 37

GUTTMAN, RITA. Action of potassium and narcotics on rectification in nerve and muscle 43

FENN, WALLACE O., HAEGE, LORRAINE F., SHERIDAN, EUGENIA, and FLICK, JOHN B. The penetration of ammonia into frog muscle 53

BINGHAM, EUGENE C., and ROEPKE, RAYMOND R. The rheology of the blood. III. 79

No. 2, NOVEMBER 20, 1944

MARSHAK, A. Changes in the apparent cytoplasmic hydrogen ion concentration of *Ameba dubia* on injection of egg albumin 95

MYERS, JACK, and CLARK, L. B. Culture conditions and the development of the photosynthetic mechanism. II. An apparatus for the continuous culture of *Chlorella* 103

CORNMAN, IVOR. A selective lethal effect of penicillin on sarcoma cells growing with normal tissue in roller tube cultures. Plates 1 and 2 113

CARR, CHARLES W., and SOLLNER, KARL. The structure of the collodion membrane and its electrical behavior. XI. The preparation and properties of "megapermselective" collodion membranes combining extreme ionic selectivity with high permeability 119

BINGHAM, EUGENE C., and ROEPKE, RAYMOND R. The rheology of the blood. IV. The fluidity of whole blood at 37°C 131

SPIEGEL-ADOLF, M., HENNY, G. C., and ASHKENAZ, E. W. X-ray diffraction studies on frog muscles 151

No. 3, JANUARY 20, 1945

CARR, CHARLES W., GREGOR, HARRY P., and SOLLNER, KARL. The structure of the collodion membrane and its electrical behavior. XII. The

preparation and properties of "megapermselective" protamine collodion membranes combining high ionic selectivity with high permeability 179

COX, R. T., COATES, C. W., and BROWN, M. VERTNER. Electric tissue. Relations between the structure, electrical characteristics, and chemical processes of electric tissue 187

WHITAKER, D. M., BLINKS, L. R., BERG, W. E., TWITTY, V. C., and HARRIS, MORGAN. Muscular activity and bubble formation in animals decompressed to simulated altitudes 213

HARRIS, MORGAN, BERG, W. E., WHITAKER, D. M., TWITTY, V. C., and BLINKS, L. R. Carbon dioxide as a facilitating agent in the initiation and growth of bubbles in animals decompressed to simulated altitudes 225

HARRIS, MORGAN, BERG, W. E., WHITAKER, D. M., and TWITTY, V. C. The relation of exercise to bubble formation in animals decompressed to sea level from high barometric pressures 241

BERG, W. E., HARRIS, MORGAN, WHITAKER, D. M., and TWITTY, V. C. Additional mechanisms for the origin of bubbles in animals decompressed to simulated altitudes 253

GAFFRON, H. Some effects of derivatives of vitamin K on the metabolism of unicellular algae 259

GAFFRON, H. *o*-Phenanthroline and derivatives of vitamin K as stabilizers of photoreduction in *Scenedesmus* 269

No. 4, MARCH 20, 1945

ANDERSON, EDWARD H. Nature of the growth factor for the colorless alga *Prototheca zopfii* 287

ANDERSON, EDWARD H. Studies on the metabolism of the colorless alga *Prototheca zopfii* 297

FRENCH, C. S., and RABIDEAU, G. S. The quantum yield of oxygen production by chloroplasts suspended in solutions containing ferric oxalate 329

OSTERHOUT, W. J. V. Differing rates of death at inner and outer surfaces of the protoplasm. III. Effects of mercuric chloride on *Nitella* 343

PONDER, ERIC. The mechanism of the inhibition of hemolysis. II. Effects of pH on inhibition by plasma and by cholesterol sols 349

PONDER, ERIC. The mechanism of the inhibition of hemolysis. III. Inhibition by sols of substances related to cholesterol 357

CHRISTENSEN, L. R. Streptococcal fibrinolysis: a proteolytic reaction due to a serum enzyme activated by streptococcal fibrinolysin 363

SPIEGELMAN, S., and REINER, J. M. Maxima in rate-concentration curves and their relation to the structural aspects of cellular metabolism 385

No. 5, May 20, 1945

PAGE

Henry, Richard J., and Henry, Maryon D. The effect of penicillin on eggs of the sea urchin, *Arbacia punctulata* 405

Henry, Richard J., and Henry, Maryon D. The effect of penicillin on methylene blue adsorption onto activated charcoal 415

Erickson, John O., and Neurath, Hans. Immunochemical properties of native and denatured horse serum globulins 421

Cohn, Waldo E., and Brues, Austin M. Metabolism of tissue cultures. III. A method for measuring the permeability of tissue cells to solutes. 449

Johnson, F. H., Eyring, H., Steblay, R., Chaplin, H., Huber, C., and Gherardi, G. The nature and control of reactions in bioluminescence. With special reference to the mechanism of reversible and irreversible inhibitions by hydrogen and hydroxyl ions, temperature, pressure, alcohol, urethane, and sulfanilamide in bacteria 463

No. 6, July 20, 1945

Clark, Janet Howell. The temperature coefficient of the urea denaturation of egg albumin 539

Pace, D. M., and Ireland, R. L. The effects of oxygen, carbon dioxide, and pressure on growth in *Chilomonas paramecium* and *Tetrahymena geleii* Furgason 547

Christensen, L. R., and MacLeod, Colin M. A proteolytic enzyme of serum: characterization, activation, and reaction with inhibitors .. 559

Research Staff U. S. Navy Medical Research Unit No. 1. Studies on the pH and Eh of normal and influenza-infected eggs 585

Bingham, Eugene C. The rheology of the blood. V 605

Index to Volume 28 627
